

# Electrical Substations and Lines

Dipl.–Ing. Lucie Noháčová, Ph.D.  
Doc. Dipl.–Ing. Jiřina Mertlová, CSc

2010

*The publication of this technical specialized book was realized by the support of the project MPO 2A – TP/051 and the students project SGS – 2010 – 018.*

Lucie Noháčová, Jiřina Mertlová:  
Electrical Substations and Lines  
BEN – technická literatura, Praha 2010  
1. vydání  
**ISBN 978-80-7300-265-7**

*To our families*

I dedicate this book to my parents, especially my mother. I thank them for lifetime support, love and understanding.

Lucie Noháčová

The Authors thank Ing. Jan Veleba, Ing. Miroslav Šafařík, Ing. Veronika Královcová, Ing. Vladimír Kraus, which helped us in the translation, proofreading, illustrations, graphics and publication of this book.

In Pilsen, October 2010

Authors

## **TABLE OF CONTENTS**

<b>1. ELECTRICAL POWER NETWORK .....</b>	<b>6</b>
1.1 General Description of Electrical Network Solution .....	6
1.1.1 Basic Network Types in Terms of Interconnection and Operation .....	9
1.2 Methods of Operation for Transformer System Points .....	11
1.2.1 MV Networks with Insulated System Point.....	11
1.2.2 Compensated MV Networks.....	12
1.2.3 MV System Point Earthed via Resistance .....	13
1.2.4 Network with Directly Earthed System Point.....	14
<b>2. ELECTRICAL SUBSTATIONS.....</b>	<b>15</b>
2.1 Electrical Substation Facilities .....	16
2.2 AC Electrical Distribution Facilities .....	17
2.2.1 Schemes of Electrical Distribution Facilities.....	18
2.2.1.1 <i>Bus-bar Systems</i> .....	22
2.2.1.2 <i>Distribution Facilities with Direct Bus-Bars</i> .....	23
2.2.1.3 <i>Switching Stations without Bus-Bars</i> .....	32
2.2.1.4 <i>Substations with more Breakers per Branch</i> .....	35
2.2.1.5 <i>Schemes of Distribution Facilities in HV/HV Transformer Stations in the Czech Republic</i> .....	38
2.2.2 Designs of Electrical Distribution Facilities .....	39
2.2.2.1 <i>HV Substation Design</i> .....	40
2.2.2.2 <i>MV Substation Design</i> .....	48
2.3 Transformers .....	50
2.3.1 Transformer Design and Layout Solution.....	55
2.4 Common Equipment .....	56
2.4.1 Distribution Equipment for Substation Auxiliaries .....	57
2.4.2 Compressed Air Generation and Distribution Equipment.....	57
2.4.3 Accumulator Battery .....	58
2.4.4 DC Switchboard Design.....	59
2.5 Control System.....	59
2.5.1 Electrical Substation Operation and Control .....	60
2.5.2 Control System Solution .....	64
2.5.3 Dispatching Control Hierarchic Arrangement.....	66

<b>3. ELECTRICAL LINES.....</b>	<b>75</b>
3.1 Overhead Lines .....	75
3.1.1 Mathematical Model of the Overhead Lines .....	76
3.1.2 Conductor Parameters .....	85
3.2 Covered Electrical Lines .....	88
3.2.1 Wire Insulation Types .....	88
3.2.2 Cable Laying .....	91
3.3 Conductor Dimensioning .....	97
3.3.1 Conductor Sizing by Admissible Operating Temperature.....	97
3.3.2 Conductor Sizing by Economic Aspects.....	99
3.3.3 Conductor Dimensioning by Voltage Drop Control.....	100
3.3.4 Conductor Dimensioning by Mechanical Strength.....	101
3.3.5 Check for Conductor Heating during the Short Circuit.....	107
<b>4. TEXT FOR SEMINARS.....</b>	<b>110</b>
4.1 Operation of Electrical Substations.....	110
4.1.1 General Handling Operations.....	110
4.1.2 Special Conditions for Functional Switching of Individual Switches.	114
4.2 Dimensioning of Electrical Distribution Equipment .....	133
4.2.1 Dimensioning of the 110 kV Substations for Thermal and Dynamic Effects of Short-Circuit Currents .....	133
4.3 Dimensioning of the Overhead Electrical Lines .....	134
<b>5. ANNEXES.....</b>	<b>139</b>
5.1 Parameters of Electrical Lines, Alternators and Transformers.....	139
5.2 Electrical Distribution Facilities .....	153
<b>6. LIST OF LITERATURE.....</b>	<b>164</b>
